BayMaster Retro

Increase your sales by putting a credit card / Fleet card reader directly into the bay. The count up feature of the BayMaster Retro credit card system allows customers to wash until their car is clean instead of watching the clock. The screen shows the customer how much time they have used as well as giving useful help information. The numeric keypad can be used to enter discount codes, fixed time codes, fleet codes and pay at the pump codes.

- Simple to use - Just swipe your card or enter a code to activate
- Count up feature allows customers to wash until their car is clean
- Takes all major credit cards as well as custom fleet cards
- Activate multiple bays at one time with the same card
- Credit cards are only charged once to minimize transaction charges
- Easy to install into existing bays
- Includes the 5 Easy Step sign shown on the back of the brochure
- Works with Prepaid Cards, Gift Cards and Post Pay Cards
- Tracks when the card was used and for how long
- Limited cards or codes can be set up for staff to do bay cleaning
- Optional Coin monitoring or control with reporting
- When doing coin control the unit will act as your bay timer with adjustable minimum to start, grace timer and 30 second warning
- Optional Bonus time with coin and credit
