

EXACTA

Maxx Teller

Maxx Teller

Exacta's Maxx II Teller system is designed for automatic and tunnel wash applications. This system has the ability to be a stand alone unit with the capabilities of accepting cash, coin and producing change. Many other options are available including the POS option, which gives the site the abilities to Page, access the Remote Accounting, and also generate codes and discount codes. The Credit Card, Fleet Card, and the Swipe & Save options are available. Combining these options will create a machine that will suit every customer's needs.

- Optional Upper and Lower Bill Acceptors
- Up To Three coin hoppers
- Dispense Vacuum Codes or Tokens
- Receipt printer and Water proof Card Swipe
- Built in reporting with float tracking
- Detection Sensor
- Custom Voice Messaging & Microphone to change messages
- Back-lit 4 Line by 20 Character LCD Screen
- Built-in Heater with fan
- Stainless cabinet with fiberglass front which comes in multiple color selections
- Interfaces to all Automatics and Tunnel controllers
