

EMV Cashless Teller Kiosk

Maximize your revenue and throughput with chip and Pin including Tap. Our EMV Cashless Teller Touch Screen "Signature Series Kiosk" is designed with all users in mind and it's easy to use. With our 7inch 1000 NIT HD Touch Screen technology, we can fully customize your wash to best suit your marketing needs.

**Chip and Pin with
Tap and Go**

Exacta's Cashless EMV Auto Teller Kiosk system is designed for automatic and tunnel wash applications. Many options are available including the POS option, which gives the site the abilities to EMail, access the Remote Accounting, and also generate codes and discount codes. The Color Touch Screen can be customized with your logo or advertising.
